BY DIRECT WIRE TO THE TIMES ! NEW YORK, Aug. 20.-[Exclusive Dispatch. The Sun's Washington correspondent says the Chinese government will shortly make demand on both Russia and Japan for damages sustained by Chinese citizens in Manchuria during the operations there. Peking is likely to make its claims soon after the negotiations between Russia and Japan are concluded. The amount of the claim will be very large. The crops of two seasons have been ruined for the Chinese who live within the hostile zone in Manchuria and many of

these are destitute. The war zone during the last eighteen months has been entirely in Chinese territory, and untold damage has resulted to the most fertile and best-tilled section of Manchuria.

The President Proposes Arbitration to the Author of the Hague Conference, and Witte's Tone is Less Strong Than Heretofore-Linevitch Intervenes and Proposes More Fighting.

[BY THE ASSOCIA TED PRESS-P.M.]

*********** ORTSMOUTH (N. H.) Aug. 20.—The Associated Press is able to announce that the feature of the proposition of the President, communicated through Baron Rosen to M. Witte and by the latter to Emperor Nicholas, was based on the principles of arbitrat Whether the President contemplates arbitration of all the articles on which the plenipotentiaries have failed to agree, or only on the question of indemnity, cannot be stated with positiveness, but it is more than probable that it relates only to indemnity, or to indemnity and the cession of the Island of Sakhalin.

Neither is it possible to say whether the President has yet made similar proposal to Japan. The customary diplomatic proceedings in such a case would be to submit the proposal simultaneously to both countries, but there might be an advantage in securing the adherence of one before submitting it to the other.

To Emperor Nicholas, the author of The Hague peace conference the suggestion of arbitration, which will necessarily immediately command the sympathy of the public opinion of the world, will be particularly bard to reject. If he shall agree, Japan, if she has not already done so, will be all the more bound to submit her claim to the decision of an impartial arbitrator. Acceptance by both sides would involve a great extension of the principle of arbitration, as nations have heretofore declined to arbitrate questions involving their "honor and dignity."

Both Takahira and Witte in the early stages of the conference absolutely rejected the idea of arbitration, and only yesterday both reiterated their disbelief in such a solution. It was noticed, however, that Witte's opinion was not expressed so strongly as it was last week.

RUSSIA WANTS CONCESSIONS.

ST. PERERSBURG. Aug. 21, 1:20 a. m.—Russia's official attitude to the state of the the cession of Sakhalin will make peace possible. The questions pertainting to the limitation of Russia's naval power and the surrender of her interned warships are considered here to be quite susceptible of satisfactory arrangement, and not able to cause serious trouble.

An interesting development of Sunday was the statement from the best authority that the Foreign Office did not believe that August 22 would necessarily see the conclusion at Portsmouth of the conference, but that there will be further exchanges between the plenipotentiaries, lasting two and perhaps three days. In some quarters, this is taken as a sign that there is still hope for a settlement on a

THE CZAR CONSULTING.

(BY THE ASSOCIATED PRESS-P M.! ST. PETERSBURG, Aug. 21.—M. Witte's full reports are being submitted through the Foreign Office to the Emperor. There has been no meeting of the grand dukes to consider these reports, but the Emperor has been in consultation, and will consult again today, with his advisers and ministers on vital matters now being decided here. The final communication of the supreme deciding authority, Emperor Nichclas, conveying His Majesty's instructions as to the course which M. Witte shall pursue, beginning Tuesday, will be transmitted to Portsmouth through the Foreign Office probably tonight (Monday) or Tues-

sult is still in doubt.

The ultimate decision of the issue as, de facto, if not de jure, passe rom the plenipotentiaries to their rincipals; from Portsmouth to St. etersburg, and, perhaps, in a lesser xtent, to Tokio. Although there are ollateral evidences that pressure oth by the President and neutral owers, including Japan's ally, Great ritain-whose Minister, Sir Claude Macdonald, according to a dispate eceived here, had a long conference his afternoon with Mr. Katsura, th anese Premier-is still being ex erted at Tokio to induce Japan derate her demands, there is als reason to believe that the President minicate to the latter's senior, Witte Japan's "irreducible minimum"-wha she would yield, but the point be and which she would not go.

THE ONE THING. Whether an actual basis of com promise was proposed by the Presi-dent cannot be stated definitely. The thing that can be affirmed posi tively is that if Russia refuses to ac upon the suggestion or proposition of the President, the peace confer ence will end in failure. and in the Russian camp, little en-

irreconcilable differences," but the personally may view the proposition, is distinctly pessimistic as to the character of the response which will come from St. Petersburg. To a confidential friend this afternoon he offered little hope of a change in the

situation JAPAN STANDS PAST The Japanese, it is firmly believed hold to the substance of the form of "the cost of the war." Perhaps they are willing to decrease the sum asked, but substantial compensation under whatever guise it is obtained they decline to relinquish. And the also are firm upon the cession of Sak halin. By the transfer of the south ern branch of the Chinese Eastern Railway first to Japan for relinquist ment to China, payment for the main tenance of the Rusian prisoners and the surrender of the Russian warships, it is possible to figure out a total transfer to Japan in money and property of about \$250,000,000. Bu this is the limit.

The Japanese, as usual, are very reticent, and it is impossible to obtain from them the least indication of their view of the change in the situation produced by the President's action It is taken for granted that the President's appeal was made to Japan, as it was to Russia, but the Japanese side of the negotiations looking to a compromise is almost completely in the dark. It is understood that Baron Kaneko was able to explain the

Japanese views to the President. If the President is successful with Russia, it may be that he turn to Japan. That would be the

BERLIN, Aug. 20.—[By Atlantic Cahle.] The Russian Emperor's decree invoking a national assembly, was published in Germany yesterday evening, and 's analyzed by the newspapers of today. The conditions existing in the empire of her next-door neighbor are probably as well known in Germany as in outside States, yet opinion is as varied regarding the organic change in the Russian system as there are political groups.

The Socialist newspapers, published by the powerful party organization, mock at the decree, and call it an "imperial joke" of Emperor Nicholas, denoted the archives."

The Synoteshestva, while criticising certain points in the project says:

"August 13 will be recorded in history as a day of victory for the Russian poople over the dark powers, which, although subbornity resisting, are yielding step by step."

The principal objection raised to the annually in St. Petersburg and Moscow, to 3400 in the smaller towns. This, it is urged, will exclude the vast majority of educated persons from suffrage. Peasant representation, however, is fully insured everywhere.

The Socialist newspapers, published by the powerful party organization, mock at the decree, and call it an "im-perial joke" of Emperor Nicholas, de-signed to show those in his empire struggling for constitutional liberty how little he cares for their aspira-tions. The newspapers aver that a constitution providing for 180 voters in cities like St. Petersburg and Moscow is ludicrous.

tities like St. Petersburg and Moscow s ludicrous.

The North German Gazette considers that Emperor Nicholas by a stroke las placed Russia among the constitutional governments of the world. It togards the document as drawn with visdom and inspired by a sincere pursose to begin self-government, at the ame time taking due account of the neapability of Russians, as a whole, o govern themsleves.

Between these two extremes of pinion are others which voice the ope that Russia has at last begun he development of constitutional institutions, a development that must be low and experimental.

natural course, if he has suggested to Russia what he regards as a fair compromise, and has undertaken, if Russia accepts, to use his influence to induce Japan to accept.

NOT SCHENCKS. NOT SCHENCKS.

The Japanese view of the situation is authoritatively but rather humorously stated thus: "The result will be known soon. It is useless to epeculate. As well for the plenipotentiary to give his opinion of the sex of the unborn infant, when the child is born, we will be able to tell whether it is a boy or girl." it is a boy or girl

Emperor Nicholas's decision upon the fate of the conference seems now to hang fire, according to the best-informed Russians, depending upon conditions at home, and these conditions they do not believe are propitious. The main his factors at the second to they do not believe are propitious. The main big factors are the internal conditions and the reports from the front as to the military situation. The former has been ameliorated by last Saturday's manifesto, and the character of the reports received by His Majesty from Manchuria are known to be good. Gen. Linevitch has expressed absolute confidence in victory, and since the conference began he and his generals have not only reassured His Majesty that the army was never in better condition, but they have sent messages to Witte imploring him not to make peace. They demand an op-SEE AIRSHIP.

to make peace. They demand an op-portunity to retrieve the honor and prestige of the army, and in a country where the army is the bulwark of the government, the wishes of its generals are not likely to be disregarded

by their sovereign.

It is significant in this connection It is significant in this connection that Witte took occasion today to formally deny, through the Associated Press, the published reports from St. Petersburg to the effect that, at a meeting of the council for the national defense, presided over by the Grand Duke Alexis, the Emperor had telegraphed to Witte to come to an understanding with the Japanese. Witte said: "The report is a pure invention. There is not a word of truth in it. The National Council for Defense has held no meeting. The Grand Duke

has held no meeting. The Grand Duke Alexis never uttered a statement like that attributed to him. On the contrary, the news from Gen. Linevitch is entirely reassuring. I am not a military man, and I cannot therefore give advice or express opinions on military affairs, but what I know is that the whole Russian army, and especially Gen. Linevitch, his officers and the soldiers under their command are most insistent that peace should

time in the history of the metropolis that New Yorkers saw a real airship soaring above them for any distance, and the manner in which the aeronaut handled the frail craft, steering it at will, rising and dropping at most fear-inspiring angles, caused the crowd to hold its breath in contemplation of the awful end which it expected would come at any moment to the machine and its controller.

From Sixty-second street and Eighth avenue, down Broadway to Thirty-eighth street and back, the airship was guided, encircling the Times building with precision, then steering straight back to the starting point. It was not without hitch, however, that the flight was accomplished, and several times it seemed as if Knabenshue would be dashed to death.

Two unsuccessful attempts to fly the machine were made before a successful ascent was accomplished, and twice the aeronaut and his machine landed on the trees of Ceutral Parl. As he came down in since fashios men and women closed the eyes and studdered. Knabenshue, however, smiled at the mishaps, and said he would positively circle the Platiton building. That he did not do so was because he mistook the Times building for the Twenty-third-street structure. DELAY ANTICIPATED. DELAY ANTICIPATED.

The issue will not necessarily be decided Tuesday, Indeed, it is quite likely that there may be some delay in the answer from St. Petersburg, in which case no excuse will be found to adjourn the meetings over from day to day. The Japanese will not be impatient, but the final decision will without doubt come this week. One of the members of the Japanese mission tonight expressed the opinion that, whether a treaty was signed or not, the conference would complete its not, the conference would complete labors by the end of the week.

[BY THE ASSOCIATED PRESS-P.M.] PORTSMOUTH, Aug. 20.—Bryant Chaninoff, corresponded to the St. Petersburg Slovo, who is in close touch with the members of the Russian mis-sion, made the following significant statement tonight to the Associated

Press:

"Now that we are on the eve of the decisive day when we are to see whether higher civilization, wedded to peace, is to come out victorious, or will admit itself incapable of finding just solution of the problem at Portsmouth and will refer the whole issue back again to the arbitration of the sword, I am more than ever content that I do not belong to the government, and can say, as a simple Russian citzen, that Russia wishes peace very frankly, and that she has demonstrated her desire for peace by her course at this conference, YIELDED EIGHT POINTS.

"We know that Linevitch is not only an organizer, like Kouropatkin, but that he possesses that particular military intuition, that talent for spontaneously selzing an opportunity, which alone can give victory against an adversary as formidable as the Japanes. The number of Russian troops at least The number of Russian troops at least equal those of Japan, and they are no longer Siberian recruits.

RUPTURE AND A TURN. "I know that in the eyes of all for eigners all these arguments are not convincing. The events of the past influence their judgment as to the future, but to Russians who are in touch with the military situation, it is certain that a rupture of the negotiations is deemed desirable, because they believe that the turn of the tide is at hand."

CAN SEE ONLY RED. "Certainly, with a battle along front of 60 miles, no one can forese front of 60 miles, no one can foresee what may happen—any little accident, the sun or the dust in the eyes of the men, an order badly expressed or badly understood, a telephone wire cut, anything may in an instant entirely change the situation. One cannot be astonished, therefore, if the Russlans when they are told 'you have lost; pay,' reply: 'Fifteen times in succession we have backed the red and it has come black. We now have the advantage of the chance. We will continue to back the red until we win.'
"The player has the right to his re-

"The player has the right to his re-venge. The world cannot be angry with Russia, after having yielded per-

The world cannot be angry with Russia, after having yielded perhaps more than she ought, she now says: 'If my adversary does not understand that I have yielded unwillingly only because I have always believed in the peaceful solution of conflicts, I will-prove to him that, once wounded, I can become obstinate, and pursue the game until my adversary is completely exhausted.

"Personally, as an anti-militarist and a believer in peace, I find that it would be in entire conformity to the dignity of Russia to submit the questions in dispute to The Hague tribunal, and thus increase the splendor of that institution. But I know also that such an idea has not yet taken deep enoughroot. One, then, cannot feel resentment against the Russian people if, observing that their love for peace has been interpreted as a sign of weakness and too much is demanded of them, they replace their destinies in the hands of their generals."

No better evidence of the fact that the visitation of mosquito fever is not only being controlled here, but that there is a chance for its eradication, can be found than in the daily reports of deaths and cases. For several days the number of new cases has shown a decline, while the number of deaths have been remarkably lower, considering the number of cases, reported a week ago. Of the four deaths, one was in the Charity Hospital, one in the Emergency Hospital and the other two downtown. News from outside the city contains nothing of special interest. No better evidence of the fact that

HOT ROAST BY THE BIG UNDERWRITERS.

Report of National Board of Fire Insurance Men Scorches Los Angeles All the Way up and Down the Back—Call for Changes.

ANY criticisms, a few commen-dations and a whole volume of pointed suggestions for more ef-tive protection against loss by fire-se comprise the epitome of the re-t just issued by the "Committee of enty" appointed by the National and of Fire Underwriters to investi-

gate Los Angeles as a fire risk.

Few municipal departments escape unfavorable criticism from the engineering party which came here and collected the material on which the report is based. The fire and water de-

sport is based. The fire and water de-artments are scored on more counts an any of the others, but the elec-tical and building departments, and ore especially the ordinances under high they are created and operated, as pronounced far from perfect. But while the municipality does not cape unscathed from the ordeal, the titicisms are of faults that can be selly remedied and the suggestions are one of them either impossible of ac-prance or very difficult to carry into fect.

effect.

In a voluminous document comprising over forty \$xi0 printed pages, the corps of engineers give a dispassionate criticism of every department that might in the remotest degree be held responsible for losses by fire.

They have made a more detailed report of the fire and water departments than has ever been submitted to the public by those in charge.

The note of warning sounded in the following "summary" echoes and receboes in varying cadences throughout the entire report:

schoes in varying cadences throughout the entire report:

"The general hazard throughout the mercantile section would be inconsiderable if buildings were reasonably well protected against exposure and the fre-fighting facilities (especially water supply) made more reliable. Under present conditions there is a distinct danger that fires may get beyond control and sweep the entire section in spite of the fairly satisfactory personnel and equipment of the fire uepartment."

sonnel and equipment of the fire uepartment."

Two weeks ago this report was received here by the fire and water departments. The officials have been
guarding it with great secrecy, desiring to carry into effect some of the
suggestions it contains before the report should be made public. Yesterday
it leaked out.

The report is no kid-glove affair; it
bears little resemblance to the highlyseasoned "statements" that annually
find their way into the annual report
issued by the municipality. The engineers do not mince words. They are
investigating for the great fire insursnee companies which fix the race of
premium that shall be charged for fire
protection in Los Angeles. Fallure on
the part of the municipality to make
the improvements suggested may be
followed by an increase in insurance
rates.

That the Buena Vista pümping station be rendered thoroughly fireproof.

That eight inches be adopted as the minimum standard size of mains used for hydrant supply and that no new installations be made of lesser sizes, even in the residence districts. (Two inches is the present minimum.)

That all mains supplying hydrants in important mercantile and manufacturing sections be in general twelve inches in diameter.

This the water department notify the dire department whenever water is to be shut off from hydrants.

"That the present building laws be amended to include better requirements for fire protection, especially reducing the large undivided floor areas and heights of no fireproof buildings.

T HB scathing report of the Committee of Twenty of the National Board of Fire Underwriters, sent here to investigate Los Angeles conditions, which has been held back by the city authorities, was se-cured by The Times yesterday. It evidently is a move toward the raising of fire-insurance

"Two additional men to be assigned to every engine, hose and ladder company.

"That not more than one-third of any company be relieved for meals at one time.

"That companies be given frequent and thorough training in the use of powerful streams.

"That three additional six-man ladder truck companies, equipped with light city trucks be organized, that a twelve-man engine company be located near Seventh and Flower streets and that extra first-size engines be substituted for at least three second-class engines now in use in the mercantile district."

One of the exceedingly rare commendatory criticisms in the report reflects credit on Fire Chief Lips. His department is pronounded to be "well managed but undermanned." In this Lips outrends even the superintendent of the water department is characterised as "fairly efficied is the water distribution system which is bluntly characterized as "inadequate." The number of gate valves are "insufficient" and the hydrants are "too widely spaced and of poor type."

The automatic fire alarm system is simply "not suitable." The management of the fire alarm system is "fair;" the fire marshal's duties are "fairly well executed;" the assistance from the police and street department is "only moderate;" the water department does not cooperate," and the fire department and cooperate, and the fire department "does not cooperate," and the fire department is that on the "protection for

"affords fair protection against ordiairy fires."
One of the severest criticisms in the
ceport is that on the "protection for
congested value district." Of this the
report reads as follows:
"Reasonable protection for this district requires a total delivery for purposes of fire engine supply of at least
15,000 gailons per minute. A detailed
study of the system shows that under
present conditions main arteries leading into the district are capable of delivering a supply for fire fighting purposes of only 3000 gallons per minute
at times of maximum domestic consumption."

many and some of them of a rather pungent nature, Los Angeles has on the whole fared much better than many other cities on which the "Committee of Twenty" has reported.

There is no unfavorable criticism either in management or personnel of the force of employés ef any city department. In this Los Angeles is the exception, hardly another of the thirty-one cities reported upoh faring so well.

Greatest fault is found with small water mains, poor valvés and an inadequate fire claim system.

Data for the report was collected by A. M. Creiger, engineer in charge of free department work; Z. H. Jarman engineer in charge of structural work; A. H. Smith, engineer in charge of hydraulic work, and a corps of assistants.

ants.

Acknowledgement is made of the valuable assistance rendered by the Hon. Owen. McAleer. Mayor, and the heads and officials of the various city departments conterned.

GOT AHRAD.

Some of the suggestions concerning the fire department have already been carried into effect by the Fire Commission. Extra ladder trucks have been organized, aimost \$100,000 of new equipment has been ordered and the board has asked the Council for men to man the new engines and to make the increase in the present forces suggested in the report.

From their abundance and from their poverty each has given into the coffers of the church a tenth part of all their income. The man whose herds of cattle browse over the distant hills gives his quota, and the widow presents her mite. From this general sum the preachers who will today leave for their fields of work throughout Southern California will be paid.

dolls conceived the idea of giving an old maid's tea party as an incentive to a large attendance of doll dress-makers. Each and every girl came dressed in the quaint, prim style of the type of New England old maid that Mary E. Wilkins has immortalized, and the whole bunch looked as if they might have stepped out from the pages of one of Miss Wilkins's books. With hair combed soberly down over their ears, corkscrew curis trailing over their prim shoulders, clad in slizen gowns of large, bright plaid or of plain "souff color." with scant, marrow skirt and long-waisted "basquines." with bead work-bags, which held the proverbial peppermint lozenges, and with coquettish patches of court plaster cut in the shape of tiny cats and pasted demurely on cheek, nose or chin, these girls presented such a comical appearance that the rafters rung with peals of girlish laughter as each old maid appeared.

In the evning the boys of the league put in an appearance, much to the surprise of the old maids, who tittered bashfully and coyly as each gray awain arrived in turn. The dolls were auctioned off to the boys, and the girl who best personified the typical New Bngland old maid of half a century ago received the reward of a clever

GOSSIP OF THE LOCAL STAGE.

The revivals, picturesque and pientral of late, are not only a stimulus to srt, but have been in Los Angeles good business proposition. When Harry Mestayer played "Ghosts" at the Belasco the first crowd filled the house with fashionable folk, and the second was like unto it, only more so. Harry believes that he could have played a week, and put magnificent money in the box-office at every curtain-ralsing.

Mr. Morosco's presentation of "The Doll's House" blas fair to be equally successful. "Willie" says that he has sold nearly every seat, and there have been scores of good locations turned down.

Apropos, it may be interesting to know that another play is to be presented before many weeks here, in ansually ambitious manner. It is "Hedda Gabler," never before seen on the Pacific Coast in stock.

Mrs. Desmond will interpret the part of Ibsen's frivolous, fashionable, carpicious and yet good-hearted woman, whose whole life is a mixture of the tragical and farcical, and whose final stiempt at wilful exodus is a mocking combination of the comic and pathetic. It is a splendidly human role, a role fall of emotion and primeval passion, yet quiveringly tense with infinite sublety. We shall be very glad to see what Mrs. Desmond will do with it. She has shown on one or two occasions real blood relationship with her great sister, Nance O'Neill.

Managers have fallen afoul of two

Managers have fallen afoul of two leading women in the stock houses here. Isabelle Evesson, of the Belasco, will probably leave in two weeks. Her successor is not known as yet. There is no hurry about making a choice.

Miss Tower, of the Angelus, has already gone. Her employers felt that she did not make good as she should have done, and somebody else will be given her place. At present Miss Rasetto is filling in.

Mrs. Frederic Belasco, who is known to the stage world as Juliet Crosby, will come down in a few weeks, probably appearing after Barnum's appearance as Richelieu. Mrs. Belasco has a pretay repertoire of Japanese pieces, and is said to have been the best 'Mme. Butterfy' who sver played the part. "The Beart of a Geisha" is another of her successes.

while time and progress go hand in hand. Los Angeles weeds are growing over the long-set foundations of the proposed Tivoli Operahouse, and the wiseacres shake their heads prophetically and say, "Aha!" in a doleful manber as they pass by on the other side. Inquiry is stilled altogether by a single fact: Abbot Kinney is yet paying the monthly rent on the Tivoli ground, at present the builder of Venice has not relinquished his dream of a Los Angeles theaser. He is holding it in meerved leash, while his mushroom dites spring up by night along the shoot loward the Pielades faster than the swift mounting of an unleashed hydrogen balloon.

Morosco and his backers ready for their Majestic Theater—all but—the owners of the little structures that new stand on the site. They cannot agree on a wrecking price, and the theater waits. While the fallen are forgotten, those who served under their banners rush as to the leadership of a bost that have not the ancient dynasity.

A. Morganstern is in the background for the present; his dearning of the saved Richto has ceased for the lime being, and the daily acquisitions to his playhouse string are numbered in more in the theatrical newspapers.

Last night his brother, C. W. Morganstern, manager of the Broadway Theater and an associate of Rube Welch, blossomed out as a manager of musical comedy, with the Welch-Morganitern company at the Chutes.

Theater management is something like playing a game on Change; when you've made an unlucky gamble, and the whole hood-tide of frengied finance furns against you, you are out in a second, and even your own family has forgotten your meteoric existence.

However, A. J. is not dead, but sleepeth Perhaps he will awaken again.

Melbourne MacDowell is still serving

Melbourne MacDowell is still serving as a star. He is back East at present,

baying an "outdoor" engagement, in the idea that the novelty of the thing will attract big money.

McDowell is impossible as a stock setor, say the managers. He is no "study;" his memory is so slow that it takes him long weeks to learn a simple part. His repertoire is confined to certain Sardou things, a few outside roles and certain studies that he has arduously crammed during later years.

It looks an easy thing: but it isn't.
Mr. Morosco said yesterday: "For a past month I have read every play that comes to my office, in a desperate endeavor to find something new, something attractive, which can be obtained at a possible figure for stock production. IN COUPON POINTS.

A SURPRISE is in store for coniestants and their friends in the
scholarship race.
A coupon of special value will be
printed in The Times next Sunday.
This will enable those who recently
have become interested in contestants
to make up for them what they have
lost by falling to save coupons for the

los in age up for them what they have lost by failing to save coupons for the past forty-six days.

By ordering in advance patrons may purchase a number of these papers. This purchase a number of these papers. This gives opportunity to advertise Southern California—and the Sunday Magasine of The Times is the best immigration literature for this section which is produced—and at the same time to help along a favorite contestant who, through The Times scholarship route, seeks an education.

Next Sunday's papers may be ordered in advance direct from The Times or through news agents. To insure delivery the order must reach The Times office not later than Friday.

NEARING THE END.

NEARING THE END. This hand-to-hand contest for the hance to attend the best schools in outhern California is nearing its end. Southern California is nearing its end.
Only about fourteen days remain for collecting coupons and taking subscriptions. Now is the time and opportunity for patrons and refiders of The Times to pick favorites and to help them to the positions in life which education and scholastic training make available. Let not a coupon go to waste. To the credit of one of the contestants prepay your subscription for a month, a half-year, a year or for five years, just as you can afford! Every subscriber receives full value of his money in subscription. It really costs the public nothing to vote about forty deserving young people into the fine schools and college which the excellent educational system of California has evolved.

A shoe lining

would seem to be one of the hardest things to advertise-

A Boston house which was making a very good grade of plain shoe linings stamped it with a name and trade-mark, alone. The trade refused to buy it for the simple reason that it cost twenty per cent. more than the lining they were buying, which lining was equally as good quality as the trade-marked

So the manufacturer told people who wear shoes about this lining through the columns of THE LADIES' HOME JOURNAL and other magazines of national circulation. Within a year the sales had increased eight hundred per cent. and several times since then at the rate of one hundred per cent. a month.

Cotton has advanced in price twice in the last year, and twice the price of this shoe lining has been raised, but still the sales continue to increase.

Today this trade-marked and advertised shoe lining is selling over the same counter, side by side with the same grade of lining unadvertised, at from two to three cents per toot more than the unknown brands.

Out of Doors.

(BY THE ASSOCIATED PRESS-P.M.)

NEWPORT (R. L.) Aug. 20.—Those who escaped death, but were injured in the automobile accident here yesterday, had greatly improved tonight. Last night Miss Evelyn Walsh, daughter of Thomas F. Walsh of Washington, suffered much, but today she was much easier. Her injury is a fracture of a thigh bothe. Miss Walsh has not been informed of the death of her brother, Vinson.

Mrs. James L. Kernochan of Hempstead, L. i.. and Harry Ocirichs and Herbert Pell, both of New York, are much better, and the latter was out of doors today.

Messages of condolence arrived at the Walsh will throughout the day. Private services over the body of Vinson Walsh will be held tomorrow at Trinity Church. Rev. Robert Lowry, the rector, will officiate. The body will be entombed at the Island Cemetery and later removed to Washington for final interment. Dr. Sherman, who was at the hospital when young Walsh was brought in, says that death was sidue to hemorrhage of the brain, was at the hospital when young Walsh was brought in, says that death was due to hemorrhage of the brain, caused by a fracture of the skull.

Baseball of the high class which makes the fans think that amateurs are pretty near the real things, was seen at the Chuses grounds yesterday afternoon in a match game between the Christophers and the Esmeraldas of this city and over one thousand people enjoyed a pleasant afternoon. It was one of the best amateur games ever seen here and the fact that it went thirteen innings before a winner was determined shows that the boys were playing hot ball all the time.

It was a pitchers' battle between Garcia and Howard, and while Garcia had the best of it in the swat line. Howard more than evened up by striking out sixteen men, which is probably the Southern California record for strong amateur teams. There never was a time when either team had any the best of it. Ganahl was the handy man for the Christophers; beside playing a swell game at third base, he saved his team twice from early defeats by batting in runs that ited the score. For the winners Garcia, and Tata did the best work in the fielding line, Garcia, literally eating every chance that came to him without a blunder. The hitting was very light, Tata, Salazar and Gant ahl being the only players who had any kind of a shadow with the pitchers.

ings of two lightweight fighters.

It is quite natural that the public should take kindly to this Britt-Nelson battle. Ever since their meeting of last December there has been a clamor for a return battle. Nelson's second decisive defeat of Young Corbett and Britt's subsequent victories over Jabez White and Kid Sullivan simply added the latest the already healthy flames. fuel to the already healthy flames. There is no doubt but that the fortyfive round proposition has a lot to do with arresting the attention of the public. BIG CHUNK OF COPPER

Being Taken from a Mine in Michigan.

[St. Paul Dispatch:] An enormous mass of pure native copper is being uncovered at the Michigan mine, in Ontonagon county. The big chugk lies in the tenth level at a point about 1600 feet from one of the principal phafts. Several large pleces have already been cut from it, and these, with the remainder of the mass so exposed, weigh fully twenty tons. How much more there is of the big chunk is a matter of conjecture, but from all indications the aggregate weight of the mass will be found to run figty or even more tons. Masses of copper are encountered so regularly at the Michigan that sine of several tons excites no comment. It is only when one of unusual size is located that it is deemed worthy of notice.

Large as this mass will doubtless prove, however, it will be a pigmy compared with the famous mass found in the Michigan, then known as the Minnesota. In 1866. This was 11½ by 18½ by 46 feet in size and weighted 537 tons. It required 20 men 15 months, working with long-handled chisals, to cut this mass into pleces small enough for holsting, and twenty-seven thus of copper chips were made in doing this working with long-handled chisals, to cut this mass into pleces small enough for holsting, and twenty-seven thus of copper chips were made in doing this mine, and there is no question that it deer the interest of the richest topper mine ever opened. The Calumd and Hecla is a far more valuable mine, and there is no question that it deer the mine opened has ever fielded such enormous quantities of gopper from such small openings as were furnished by the best stopes of the old Minnesota. It is interesting to, note that the Minnesota mine was discovered in 1847 through finding an findian pit in which was a six-ton mass of native copper that had been broken from its matrix of rock and raised on skids.

By a process of natural adjustment the railways carry certain chases of freight which must be car-ried rapidly, while the canals carry heavier goods, which do not require rapidity of transit. Manufacturing, agriculture and mining are stimulated by cheap transportation, and the rail-ways are sure to share in the in-creased traffic.

TROUBLE OVER MEXICAN'S "BEST BUIT OF CLOTHES."

Fellow-countrymen Jealous of His Prosperity Strip Him of His Fine Raiment and He Appeals to the Law-Verdict of Accidental Death red in Raiston Case.

PASADENA, Office of The Times, No. 26 South Raymond Avenue, Aug. 21.—Jealousy of a type made famous in Spanish song and story prompted an assault upon Juan Guerrerro by Miguel and Mary Hernandez last night. Guerrerro is a Mexican on whom his countrymen out Lamanda Park way are said to look with mingled jealousy and scorn because Guerrerro is educated and they are not; because Guerrerro is scorn because Guerrerro is educated and they are not; because Guerrerro is the possessor of more of this world's goods than is wonted of his race here-abouts, and Miguel and Mary resented his grand manner to the alleged extent of knocking him down as he attempted to alight from a Lamanda Pask car about midnight last night. Guerrerro's display of tallor-made clothes and a curled mustache is said to have stirred to a frenzy the green-eyed monster lurking in the breasts of Miguel and Mary, and when, at the terminus of the car ride, Guererro started to get off ahead of them Miguel and Mary are accused of pushing him off to the ground, where a rough-and-tumble fight ensued. Overwhelmed by force of numbers, Guerrerro emerged from the scuffic with hadly bruised

DEDICATED BY BISHOP CONATY.

CATHOLIC MISSION AT OCEAN PARK COMPLETED.

Priests and Laymen from Los An-geles and Many Other Places Par-ticipate in the Impressive Cere-mony—Powerful Sermon Preached by Bishop to Large Congregation.

OCEAN PARK, Aug. 20.—Rt, Rev. Bishop Conaty dedicated the little mission church of St. Clement yesterday. A number of Catholics from Los Angeles were present, together with many of the priests of the diocese, who were the guests afterward of the pastor, father Hennessy. The priests officiating at the solemn high mass were Rev. Clement Molony, celebrant; Rev. T. J. O'Caliaghan of Santa Monica, deacon, and Rev. L. Hefferman, subdeacon. Assisting in the ceremony were Rev. D. W. J. Murphy of Hollywood, Rev. J. Aguilera, Rev. George Frund of Bakersfield, Rev. Raphael Fuhr of Los Angeles, Rev. James Reardon and a number of others.

Bishop Conaty chose the following as the text for his dedicatory sermon:

It has the presence of God within it, the promise of Christ upon it, the sacraments of Christ upon it, the sacraments of Christ in its keeping, and it stands among men as continuing the work of the apostolic days. Our hearts fill with gratitude to God for the gift of divine faith by which we believe in a teaching church whose mission its to continue among men until the end of time. Satisfied with her credentisis, we say to her as Peter said to Christ: "Thou hast the words of eternal life," for we believe her to be commissioned to teach what he commanded and we are confident that the Holy Spirit of God remains with her and will remain with her until the consummation of the world."

mains with ner and will remain with her until the consummation of the world."

BULGIN DRAWS CROWDS.

The revival being conducted on Marine street by Rev. E. J. Bulgin, the enthusiastic South Carolinian evangelist, continues to be the magnet about which the crowds gather. There were three meetings today and each succeeding one develops accumulating interest. Rev. Bulgin frequently takes his congregation into his full confidence, and not infrequently he is found addressing himself to "honey" in that peculiar Southern accent that cannot but please.

"Men," he said, "God deem't send any man to hell. Men send themselves there. Start in business for God. That is my message to this commercial, money-getting, pleasure-loving age. Get right with God and do His business, and hurry up. There is need of haste. Lots of men try to be moral, to live by the Golden Rule to give a square deal, but that won't save them. Friendship requires action. You can't buy friendship, either. Most of our divorce courts have their topules because men are enguged in commercialism and women in society until they have no home in the true speaning of that word. They wear themselves out on other folks and forget to cultivate each other."

Startling Address Made by Minister's Wife

Says People are Crasy for Too Many Thrills.

Meetings for Revocation of Cafe Licenses.

Two mass meetings were held last night to strengthen the sentiment against violations of the law by-certain of the local cafes which persist in serving liquors to girls and women. One of these was in the First Methodist Church, and the large auditorium and Sunday-school room were both filled. The other was at the Church of Nazarene, at Sixth and Wall streets, and here also a large congregation was

Imperial and Bristol cafés.

At the First Methodist Church there were several speakers, who described the scenes they had witnessed in the cafés violating the city ordinances; but the most notable of these addresses was given by Mrs. Emily P. Boiler, wife of Dr. Boiler, pastor of Olivet Cangregational Church.

Mrs. Boiler handled a delicate subject in an earnest and striking manner. She entered into a discussion of the sauses which have led up to the possibility of the conditions described, and declared that "the church lays too much stress on regeneration" and not enough on right generation."

Mrs. Boiler declared that in company with Mrs. Hester T. Griffith she visited the cafés mentioned above, and was amased to see dozens of women and pretty girls, persons who appeared cultured and refined, sitting at the tables in each place and drinking beer and other spirituous liquors, while the came and the cafes mentioned above, and was amased to see dozens of women and pretty girls, persons who appeared cultured and refined, sitting at the tables in each place and drinking beer and other spirituous liquors, while fire.

"These were not women of the underworld," declared Mrs. Boiler, "but nice, ladylike appearing women and girls, some of them from prominent families of this city.

MRS. EMILY P. BOLLER,

tured homes impure? What can be the foundation fact 'for conditions which allow such expression as we see evidenced in these cafes?

"I mean that at least one of the speakers tonight shall touch the very base of these conditions. We keep our boys and girls in such utter ignorince that it isn't any wonder they are tigken in by these traps. And these places are more disastrous and dangerous to the public than if they had the might shall to the form of the Nazarene is as follows:

"Society is crasy for emotion:

Public than if they had the sign "Saloon" hung out and 'Bar Inside printed over their doors.

"Society is crary for emotional thrills. There is a lack of moral aber and backbone. The café is simply one little indication of the widesprand prevalence of the worship of the physical. If we legislate against these cafés, what good will it do as a permariant cure? Would it rectify the evil coulditions which we must acknowledges, do exist? If a man's ideas of propriety and chivalry are so undeveloped, his manhood so stuitified, that he will help a girl to be bad rather than inspire her to be good, the fact of closed cafés will not change him.

"If a girl does not hold virtue—the unwillingness to think an impare thought, or do an impure act—design than mere physical life, she is sol pure.

"Whereas, it is made known that the restaurants and cafés in the city of Large more more in the city of Large more free law in the selling of liquor to women and girls, apparently without let or hindrance, and are debauching our youth in a most shameful manner, thereby bringing disgrace upon the city's fair name and sorrow to many home; therefore be it "Resolved, that we earnestly call on revoke the licenses of all such cafés, and bring the violators to speedy justice."

Drilling of the deep well for the city
on its Antil tract was commenced by
the contractors yesterday, and when
work was suspended last evening the
drill had reached a depth of twenty
feet. According to specifications, the
contractor must sink a 15-inch casing
to a depth of 500 feet, and if necessary
reduce to a 12-inch case at a depth of
500, boring through the bard cement
stratum which underlies the artesian
basin in this valley. His expectation
is to complete the big well within seventy days, and add at least 100 inches
to the city water supply.

Cornsty Hail's Corner-stons.

The presence of 500 people Rishop Cornety yesterday afternoon laid the corner-stone for the new Conaty Hail, at the corner of Daly street and Downey avenue. He was massisted by Mgr. P. Harnett, V.G., and was attended by Ravs. M. McAuliffe, rector of the Sacred Heart Church; Rev. D. W. J. Murphy of Hollywood; Rev. J. J. Clifford of the Church of St. Thomas the Apostle, Pico Heights, and Rev. James Reardon, bishop's secretary. A procession marched from the Church of the Sacred Heart, at Sichel and Baidwin streets, to the site of the new building. The whole affair was in charge of the parish conference of St. Vincent de Paul. This society led the procession, then followed the Catholic Foresters' Band and the Catholic Society of Foresters, representatives of St. Vincent de Paul societies from all the other parishes of the city, the Knights of Columbus, Joung Men's and Young Ladies' Sodahities of the Sacred Heart harish; Montgomery Council, Young Men's Institute, Los Angeles Division, Ancient Order of Hibernians, and following these societies were the bishop and priests in carriages. The building is to cost \$20,000. It will be two stories, with stores below and a hall above for the use of the Sacred Heart. It will be completed within two months.
